

Winfrasoft Gateway Appliance

running Microsoft ISA Server 2006

Sales Datasheet

Winfrasoft.

Gateway Appliance

running Microsoft ISA Server 2006

Appliance highlights...

Gateway Functionality

- ✓ Multi-Layer firewall
- ✓ Stateful inspection
- ✓ Web caching and proxy
- ✓ Integrated IPsec VPN
- ✓ Robust Management
- ✓ Policy-based access control
- ✓ Detailed logging and reporting
- ✓ SSL traffic inspection
- ✓ Intelligent application inspection and filtration
- ✓ Secure application publishing

Benefits

- ✓ Tier 1 hardware platform
- ✓ Built-in hardware redundancy
- ✓ Hardened secure O/S
- ✓ Microsoft ISA Server 2006 SP1
- ✓ Reduced operational and management complexity
- ✓ Simplified infrastructure
- ✓ Fully upgradeable hardware
- ✓ Seamless Active Directory integration
- ✓ Online partition backup snapshots that can be stored off-box
- ✓ Off-box backup and restoration of ISA configuration and log files
- ✓ Deployment in minutes
- ✓ 64-Bit ready hardware
- ✓ IDEAL for Websense 7

Superior Security Gateway solution

The Winfrasoft Gateway Appliance combines Microsoft ISA Server 2006, hardened Windows 2003 operating system and the world's premier server hardware platform from HP to provide the most comprehensive and flexible solution to protect your IT environment from Internet-based threats.

All Winfrasoft Gateway appliances include Winfrasoft Backup for ISA Server, the world's ONLY application designed to backup and restore ISA Servers, and Paragon Drive Backup 9.0 Server for online partition backup snapshots. These applications combined ensure that Winfrasoft Gateway appliances are the most redundant ISA Server security appliances on the market. All Winfrasoft Gateway Appliances also include the award winning **VPN-Q 2009** which brings your remote access NAP / NAC Quarantine to the next level.

Microsoft ISA Server 2006 gives you...

Multi-Layer EAL4+ Certified Firewall

Stateful packet and circuit-level inspection as well as application-level traffic screening using intelligent smart application filters which are protocol aware filters that inspect the physical data coming in and filter accordingly.

WEB Proxy and Caching

Leverage the power of the world's most deployed Web Proxy and caching solution for your organisations web access.

Virtual Private Network

ISA Server 2006 provides a standards-based, fully integrated and secure remote access IPsec VPN.

Easy Deployment

Winfrasoft Gateway Appliances running Microsoft ISA 2006 (Microsoft Forefront Edge Security and Access) provide customers with an easy to manage, hardened tier 1 platform device with built in configuration wizards to simplify and reduce deployment time. This means you can have a fully hardened secure layer-7 firewall, web proxy and caching solution and VPN up and running in minutes.
